

Habitat Project Assistance

Habitat Materials Store

With over 250 different grass, wildflower and legume species available, we have the largest selection of species for your wildlife habitat needs in the state! We also offer many different food plot options for your habitat project. You can be assured of receiving the best prices and mixtures that will benefit wildlife on your land.

Prescribed Burning Assistance

In an effort to help landowners conduct safe, effective prescribed burns, we have been helping to form and support local prescribed burn associations, build Mobile Prescribed Burn Unit caches of equipment and conduct prescribed burn training workshops across the state each fall and spring.

Habitat Equipment

Habitat equipment like no-till grass drills, tree planters and prescribed burn equipment are available through local chapters across the state. No-till grass drills are funded in a partnership with local PF and QF Chapters, The Nebraska Environmental Trust and the Nebraska Game & Parks Commission.

In addition, statewide habitat programs and cost share assistance through your local chapter can be available. For more information and access to all of these options, check out our website at:

www.NebraskaPF.com or call 308-390-0848
