The Grassland Improvement Program is a program being offered to improve the health and diversity of grasslands. This is a partnership with Pheasants Forever, Quail Forever, Nebraska Environmental Trust, Nebraska Game & Parks Commission, Natural Resources Conservation Service and the US Fish & Wildlife Service. Landowners accepted in the program receive an incentive of \$35-\$60 per acre payment to defer the grazing on enrolled grasslands for one calendar year when a prescribed burn and other grassland improvements are performed on the grassland in the following year.

Legal Description of Land: Sec (), T (), R ()
